

# FIVE TIPS TO PREPARE FOR YOUR PHOTOSHOOT

## *Step 01 - Location*

Where will you have your photoshoot? Do you have a home or business premises that would be suitable or are you looking for a venue or studio?

## *Step 02 - Wardrobe*

Plan all your outfits for the shoot including accessories and underwear. Think about the brand you are trying to portray when you choose your wardrobe.

## *Step 03 - Hair and Make Up*

Decide if you would like to hire a hair and make up artist for the shoot or if you feel confident and would like to do your own.

## *Step 04 - Props*

Are there any props that will help to tell your brand story? Consider how you could incorporate them into your shoot.

## *Step 05 - Before the shoot*

Think about any appointments you need to book before your shoot - hair, treatments etc.
